

# NEED WARNING FAST? REGISTER FOR CodeRED ALERTS TODAY

Get local alerts about imminent emergencies, severe natural occurrences and more by signing up for CodeRED alerts system on your smartphone or computer. CodeRED will email or text you alerts from a cloud based geo-location software to notify you. CodeRED is a fully redundant, platform dedicated service with reliable messages and flexible delivery channels. Receive alerts for weather events, shelter in place protocols, missing persons, wildfires, evacuation orders, and other emergencies.

## HOW TO SIGN UP:

### START WITH

To get started you will need a smartphone, a working phone number, and a working email address.

### GET THE APP

Download the CodeRED app from the app store and view nationwide alerts. The app will use the GPS on smartphones to send alerts for your location. It is great for when you are traveling and alerts can be tailored to your preferences.

### WEB SEARCH

Alternatively, navigate to the "[Central Texas Council of Governments](#)" website and search for CodeRED once there. Or sign up directly through the [CodeRED enrollment portal](#).
